TO WHOM IT MAY CONCERN

### PEFA Report for Tajikistan – PEFA Check

The PEFA Secretariat confirms that the 2017 National PEFA for Tajikistan has been reviewed by the Secretariat. The high level of compliance with the PEFA methodology is shown by the compliance indexes for the final report which exceeds the 85% quality assurance threshold requirements. Compliance with the indexes for dimensions and indicators are both at 100% and report coverage at about 90%. A PEFA Check was not granted because the concept note was not shared with the Secretariat prior to commencement of the assessment process as required by the PEFA Check Guidelines.

Yours sincerely
